School Wellness Assessment

This 55 question online student screening takes less than 30 minutes but allows WSA to identify which individuals are struggling in one of 7 specific areas, including Anger, Depression, Child Abuse and Drug/alcohol use. Finally, a way to identify at-risk kids.

WSA offers four (4) levels of [School Wellness Assessments](#) that look at 7 specific areas:

- Anger Management/Violence
- Depression/Suicide
- Child Abuse
- Drug/alcohol Abuse
- Emotional Wellness
- Information About Others
- School Campus Safety

All four (4) levels of School Wellness Assessments are similar however the time frame in which the screening is given varies from quarterly to one-time only assessments.

As the frequency of the assessment increases so does the likelihood of preventing school violence.

New students are enrolled everyday and student's familial situations change on a daily basis. In order to be successful, assessments must assess in a timely manner.
